- ☐ Vicki's Bio <http://coolcatteacher.wikispaces.com/About+Me>
- ☐ Wiki Handouts, Slides, Links <http://coolcatteacher.wikispaces.com> -- Look at the links on the homepage to find the link for your session.
- ☐ Our Backchannel chat for this session is at <http://www.chatzy.com/492808953110> password: coolcat

WIKI WORKSHOP

- ☐ <http://k12wiki.wikispaces.com> is the wiki we will be using for this workshop.

MY CLASSROOM LINKS

- ☐ Class Wiki - <http://westwood.wikispaces.com> (Winner Wikispaces of the Month December 2005)
- ☐ Flat Classroom Project (winner ISTE's Online Learning Award 2007, Taking IT Global's Online Learning Award 2007, Edublog Best Wiki Award 2006, included in Thomas Friedman's Book *The World is Flat* v. 3 pages 501-503.) <http://flatclassroomproject.wikispaces.com>
Project wiki <http://flatclassroomproject.ning.com>
Project Ning (Social Network) <http://flatclassroomproject2006.wikispaces.com> - Archived copy of first flat classroom project.
- ☐ Horizon Project (Finalist edublog Award Best Wiki 2007) <http://horizonproject.wikispaces.com>

OTHER PLACES I SHARE

- ☐ Women of Web 2 <http://www.womenofweb2.com>
- ☐ EdTechTalk <http://www.edtechtalk.com/WomenofWeb2.0>
- ☐ TechLearning - <http://www.techlearning.com>
- ☐ My bookmarks - <http://del.icio.us/brightideasguru>

MY BIG "THREE"

These are the THREE things that **you** will do as a result of this session **within the next 7 days!** It could be as simple as "Set up an RSS reader" it could be "go listen to a show at www.edtechtalk.com or it could be to go explore something listed here on this page. But you must pick three! *Please feel free to share these in our backchannel chat if you have a laptop.*

MY INTENTIONAL R&D LIST

R&D stands for "research and development." To be successful, teachers need to begin taking time to research tools and innovations and develop self-directed plans for innovation in their own classroom. I keep an "intentional R&D" list so that when I find a snippet of time, I can intentionally go explore the places I want to know more about. One suggestion for your intentional R&D list would be to explore <http://www.voicethread.com> !

Remember that in today's state of rapid innovation that we are all beginners and must empower our students to contribute to their own learning, have meaningful projects and activities and use technology effectively with research-based best practices and not just for the sake of technology. Thank you for coming today, please visit my blog at <http://coolcatteacher.blogspot.com>. Vicki Davis
